Washington, DC 20554

To Whom It May Concern,

The All Faith Self Help Center is a 501c non profit organization. We give religious instructions on audio cassette tapes and CDs only. We can only help people that can hear. For people with hearing problems it's frustrating and almost impossible for them to wear ear phones and hearing aids at the same time. That's why we're asking to be exempt from closed caption. The second reason is we change infomercials sometimes three or four times a month with up to date programming. By the time we get someone to do the closed caption information is outdated. We have also had hearing impaired people come to our center in the past and the audio sessions have actually caused more harm than good due to minor headaches incurred by the sessions. We have actually discouraged hearing impaired people from pursuing our program because of this factor. We would very much appreciate being exempt. I understand that we are exempt immediately until the commission makes a decision. Thank you for your time and we look forward to your reply.

NOTE: We use meditation methods only, clients must close their eyes and listen. It's impossible for the hearing impaired to close their eyes and listen to audio sessions.

Sincerely,

A handwritten signature in cursive script that reads "Sam Meranto".

Sam Meranto

MERANTO'S MIRACLES

THE ARIZONA REPUBLIC CURE FOUND FOR DEPRESSION AND OBESITY

By Former ASU Professor

My name is Richard Beard; I have five degrees, two BS, MA, MS, and Ph.D. I have been a Professor of Psychology for 21 years. I myself suffered with manic-depression for over 25 years. The medical care that I received from my colleagues simply was not working. My depression contributed to my being 65 pounds overweight and having serious health problems such as: diabetes, hypoglycemia, high blood pressure and heart problems.

As a last resort, I went to see a man that I have been hearing about for over 20 years. I used to pass by his office on my way to ASU and other colleges to teach traditional psychology. I was taught that there is no cure for clinical depression and as far as I am concerned that's bunk. To think I used to teach and believe it was incurable.

I enrolled in Sam Meranto's Guided Meditation Program. In 10 weeks it was a miracle, I personally found the cure for myself. I lost only 15 pounds. Sam told me to go slow on account of my heart problem. My diabetes medicine was cut back to one third and my high blood pressure medicine was cut in half. My medical doctor has been monitoring my heart for 12 years. I have had a leaky valve that he could hear clearly. The doctor had me go to the hospital for tests twice because he couldn't believe that the noise in my heart disappeared.

I have never met anyone like Sam Meranto. I have taught over 10,000 students and I have never met anyone that could find your problem in a matter of minutes and give you a solution. I have met many well-

known and famous psychiatrists and psychologists and none of them were able to help me. Sam, in a matter of minutes, knew exactly what was wrong; it started in my early childhood. He audio tape-recorded his findings and gave it to me to listen to when I fall asleep, for reinforcement.

Sam should be teaching in colleges. Every now and then a genius comes along like Albert Einstein and Thomas Edison that were self-taught and they changed our lives forever. Sam is a genius in what he does.

I have never felt so happy in my entire life. My depression is gone. Thank you God, thank you for sending Sam into my life. Just think, I suffered all of my life for nothing. There was a solution! I hope this article helps people that are suffering realize that there is help. Seek and you shall find.

I did not get paid to write this article; in fact I paid Sam for his Program. One day for a room in some hospitals costs more than Sam's entire program. Sam founded the All Faith Self Help Center, it is a nonprofit organization and he charges people according to their ability to pay. You can pay as little as \$50 per month. Most people save from \$100 to \$300 per month on food and medicines. It is like putting money in the bank and adding extra years to your life. If I were a millionaire I would have given it all away for the results that I have received. Only one visit is needed, you can finish at home.

Sam Meranto has helped thousands of people lose weight and keep it off. He has helped people with depression, alcohol, and drug problems and has helped people to stop smoking. He has saved companies thousands of dollars by reducing health problems and helping people to be more assertive and productive on their jobs.

Professional athletes come to Sam to achieve their best, from golfers to racecar drivers.

If you have invested big dollars in your people with seminars and motivational programs, Sam's program goes hand in hand and helps reinforce their training so it will stick in their mind and they will follow through. Most seminars only motivate people for a few days. Sam's training goes into the subconscious and stays there for lasting results.

Sam has an executive retreat set up for professionals. Let Sam work with you personally or use his audio-recorded guided meditation sessions that can be used at home, no matter where you live in the world.
